Dubai, U.A.E. | +971 55 7372552 | antaunbobby1@gmail.com | LinkedIn | GitHub
Residence Visa (Valid till Oct 2027)

PROFESSIONAL SUMMARY

Master's student in Applied Artificial Intelligence with a Computer Science background and over three years of professional experience in web development and content operations at Apple India. Skilled in Python, deep learning frameworks (TensorFlow, Keras), and full-stack web technologies, with hands-on project experience in machine learning and real-time applications. Seeking a Junior AI Engineer role to apply applied AI coursework and technical experience to real-world problems.

EDUCATION

University of Wollongong — Dubai, U.A.E.
M.S. in Applied Artificial Intelligence — Expected December 2027
- Relevant coursework: Deep Learning, NLP and LLMs, MLOps, Agentic AI

Christ University — Bangalore, India
B.Tech. in Computer Science and Engineering — 2018 – 2022
- GPA: 3.5/4

TECHNICAL PROJECTS

Music Genre Classification — *Python, TensorFlow, Keras, scikit-learn, Pandas, NumPy*
- Built and trained a Convolutional Neural Network to classify songs by genre and predict the genre of unseen tracks.
- Used Pandas and NumPy for data preparation and scikit-learn for evaluation.

Sleep-Lab — *HTML, CSS, JavaScript, Node.js, webOS, Python*
- Developed a sleep-monitoring system for smart homes on webOS.

WeTalk — *HTML, CSS, JavaScript, Node.js, Socket.IO*
- Developed a real-time web chat application using Socket.IO.

PROFESSIONAL EXPERIENCE

Apple India — April 2023 – August 2026
Content Operations Specialist — India
- Led a team building product pages in HTML, CSS, and JavaScript, translating structured product data into user-facing experiences at scale.
- Played a key role in migrating content operations from Adobe Experience Manager (AEM) to an in-house platform, working with structured content and data pipelines.
- Maintained accuracy and consistency of large-scale content on Apple's Support website, applying the data-quality discipline that underpins reliable ML systems.
- Collaborated with cross-functional engineering and content teams to deliver workflow improvements in a production environment.

KOCH Global Services India — January 2022 – April 2022
Software Engineering Intern — India
- Contributed to a real-time shipment-tracking logistics application built on the .NET platform.
- Owned front-end development in AngularJS and resolved UI bugs.

LG Soft India — May 2021 – June 2021
Global IT Intern — India
- Led a team of 3 in building a sleep-monitoring prototype for LG's webOS platform.
- Presented the prototype to a panel of LG engineers at the LG Soft Global IT Hackathon.

SKILLS & CERTIFICATIONS

AI / ML: TensorFlow, PyTorch, Keras, Transformers, LLM Fine-Tuning, scikit-learn, Pandas, NumPy, Convolutional Neural Networks
Programming: Python, C, Java, JavaScript, R
Web & Data: React, AngularJS, Node.js, HTML, CSS, MySQL, Oracle SQL, Adobe Experience Manager
Practices: Object-Oriented Programming, Design Patterns, Agile, Scrum
Certifications: Azure Fundamentals, Microsoft (2025); React Basics & Advanced, Meta (2022); Introduction to Big Data, UC San Diego (2020)

ADDITIONAL

Interests: Sports, problem solving, reading, coding
